Hi Kacee,

ED_002435_00000679-00001

12:30 is fine, thanks. I have to incorporate comments and run it back by Paul before sending it to OEA, so that should give me enough time.

I have attached a slightly revised version (per comments from Paul.)

Subject: Draft TCE.IRIS Rollout Plan

Hello all,

We met with OEA today to discuss a roll out plan for TCE and other assessments in general. Please see the draft TCE.IRIS rollout plan. David Bloomgren (OEA senior staff assigned to this) would like to send this to Seth and Bob Sussman tomorrow (Tuesday) so we need your comments ASAP - noon on Tuesday would be most helpful. Sorry for the quick turnaround.

A couple of notes/questions -

1. We need the number of assessments (including the four scheduled for this week and next) that will be finalized in FY 2011.

2. David wanted us to include 3 or 4 difficult questions and answers in this rollout plan. This is in addition to the other Q/As that had been reviewed by OSWER, OW and OAR. Please review the answer to question #3 and provide answers for questions #1 and #2.

3. Please note that we included a placeholder for biphenyl and vanadium pentoxide. We do not have confirmation that these will go forward next week.

4. Becki, we need some contact names for CDC, DOD and NASA. You didn't think we needed to contact DOE.

I won't be reachable for at least the first part of tomorrow and may be out the entire day. **Please provide your comments to Carolyn Hubbard by noon on Tuesday.** Carolyn can be reached by phone at 202-564-2189.

Thanks all.

Liz
